

SAFE WORK on WHEELS

CARBERRY COLLEGIATE

FORTY FIVE grade nine students at Carberry Collegiate were also exposed to safety training through a one-hour presentation geared towards preparing them for the Nov. 2nd, “Take Your Kid to Work Day”. Presenters covered topics such as, prevention of workplace injury, illness and death, WHMIS, Health and Responsibilities of Manitoba employers and Manitoba workers along with use of personal protective equipment, and proper procedure for reporting workplace injuries.

ONE HUNDRED AND SEVENTY SIX students and staff at Carberry Collegiate, attended the Safe Work on Wheels presentation. The Safe Work on Wheels initiative is a portable training trailer and its presentations are applicable to many different industries. The presenters offered interactive, engaging displays on fall protection, correct “Lifting”, Hand Safety and Eye Protection. Driving home workplace safety is one of the key reasons for BPSD’s commitment to Safe Work presentations and training.

Since Safe Workers of Tomorrow started in 1997 they have presented to well over 200, 000 students across Manitoba; last year alone they delivered their message to 39, 274 students in the province. As part of the CTS (Career & Technology Studies) program, Pine Creek School Division is committed to preventing workplace injury and fatality among young and vulnerable workers by raising awareness of workplace safety and health issues.
